For fertilizer application rates suitable for your geographical area or the maximum allowable non-nutrient application rates per acre, consult a trained soil specialist or write to AgriEnergy Resources, 21417 1950 E Street, Princeton, IL 61356

A documented Manganese deficiency is necessary when using **MANGANESE L** in an organic production system, because **MANGANESE L** is produced with materials that are restricted by the National Organic Program.

MANGANESE L contains NO Genetically Modified Organisms.

It is each certified organic grower's responsibility to get approval from his/her certifying agency before using this product. Because of differences among the various certifying agencies, and differences between NOP/EU/JAS/COR ingredient lists, AgriEnergy Resources cannot guarantee that our products will be allowed by your certifier on your farm.
